Add Web Site Bookmarks to Your iPhone's or iPad's Home screen

Step 1: Open the Safari app, and then navigate to the Web page you wish to bookmark.

Step 2: Tap the "Share" icon, which looks like a box with an arrow protruding, and then select "Add to Home Screen."

Step 3: Type a name for the bookmark, and then tap "Add." The appropriate home screen appears automatically, so you can quickly locate the newly created bookmark.

Step 4: Tap and hold the icon, and then drag it to a new location, if necessary. To delete the bookmark, tap and hold until the "X" appears at the top of the icon; tap the "X," and then select "Delete."

Add Chrome bookmarks to the Android home screen

Launch Chrome for Android and open the website or web page you want to pin to your home screen. Tap the menu button and tap Add to homescreen. You'll be able to enter a name for the shortcut and then Chrome will add it to your home screen.
